

Editorial

Elections next year in Europe will follow the interesting battle for the White House in Washington. Promises and last minute governmental decisions on spending money in the economy should impact the real life of both individuals as of companies.

Here is a list of the elections held in member states of the European Union:

- [Czech parliamentary election, 2017](#)
- [French presidential election, 2017](#)
- [French legislative election, 2017](#)
- [German parliamentary election, 2017](#)
- [Hungarian presidential election, 2017](#)
- [the Netherlands general election, 2017](#)
- [Slovenian presidential election, 2017](#)

With great interest we will also look to the success of the ReTEC exhibition for used machinery in Augsburg (Germany) next year in April. All EAMTM members are invited to consider participating to this unique meeting opportunity for the trade.

The Association also faces a challenge in increasing the number of members in a significant way. The business proposition to all dealers who are prepared to abide by the Code of Ethics is a mix of networking and marketing opportunities. It will not be a surprise to our members that the annual survey demonstrated the top three services, just that Internet, Conference and Code of Ethics.

AXEL MACHINES OUTILS

After 15 last years at AXEL, I announce you my departure of the company on the 29/07/16 to prepare a personal project. I shall be replaced by Madam Sabine Feyen from the 22/08/16. Thank you in advance of your welcome. I would like to thank you for these shared moments and I wish you a very good continuation so professional as personal.

Kind regards

Nathalie RAZZINI

Assistant of Mark Wicks
